Ms. Shelia Noll
York County Board of Supervisors
District 2
224 Ballard Street
P. O. Box 532
Yorktown, VA 23690-0532

Dear Ms. Noll,

As you are aware, the Tabb Area Transportation Network Discussion Group is a 12 year old effort to calm traffic problems in the Coventry subdivision and two surrounding residential communities. After a recent update by our members on the progress of the group, the Coventry Homeowners Association respectfully requests your assistance in facilitating the complete implementation of the group's recommendations.

We are requesting that two "No Through Truck" signs be placed at central locations near Coventry to control the flow of through traffic. In specific, we request one sign be placed at Coventry Boulevard and Route 17, and one sign be placed at Owen Davis Boulevard and Route 134. The Group had also recommended a sign be placed at Liberty Drive and Big Bethel Road which has already been completed.

We also request the Board of Supervisors reevaluate the ongoing cut-through traffic problems in the Davis Forge section of Coventry. We urge you to consult with the Virginia Department of Transportation regarding additional traffic calming measures specifically for Ferrier Place and Blacksmith Arch. The residents who live on these streets have been patiently awaiting a solution to alleviate this persistent problem.

We are confident that you can help us bring about a swift resolution to these two remaining issues. Thank you in advance for your consideration and support. We look forward to hearing from you.

Sincerely,

Janine Casey

President, Coventry Homeowners Association

Cc: Mr. J. Mark Carter, York County
CHOA Board of Directors
